## Interesting War Intelligence.

ACCOUNT OF THE BATTLES OF CONTRERAS AND CHU-

force affected but little our principal object.

At 3 A. M., Col. Riley's brigade was put in motion, fellowed by Gen Smith's and Gen. Cadwallader's; Gen. Shields holding the village. During the night, the 9th and 12th regiments, with a company of rides and some detachments that had been thrown out the previous day, were moved to the ravine in front of the enemy's position, and, after driving in their piequets in the gray of the morning, filed off to the right, and took a sheltered position on their left, ready to co-operate with the attacking force in rear. This force moving around the base of the hill on which the battery was placed, covered from their view and fire, began about sunrise to show themselves over its crest. Col. Riley's brigade, sweeping around their rear and right, moved down with great Stylength in advances we described provided. At the property was also that the control of the co

Farakers' Club, assembled on Tuesday, but with a limited number of its members. Colonel Sanders, of Kentucky, was unanimously elected to the chair, when the proceedings commenced by the Secretary reading several extracts upon the rise and progress of the potato, which occupied half an hour. At the conclusion, Alderman Hall remonstrated upon the very absolute theories of the French professor, from whose works the history of the plant was translated, and proved that the potato was introduced into this country by Columbus in 1492, a century in advance of the beatsed knowledge of the French historian. Alderman Hall traced the discovery of the potato to the period when Columbus visited Cuba, and in a friendly interview with the chief, at his residence, rolled leaves were lighted and presented to him, which were described as tebacco. Cotton and Indian corn also formed part of the offerings; and, also, the potato On his arrival at Lisbon, he presented these arrivals at the King and Quasan. From that, they were Spain. A letter was read from Mercer Brothers, of Philadelphia on hemp, and the method used is Russia of sowing and manufacturing the article. The chairman thought the document useful to merchants, as developing the properties of hemp, but upprofitable to growers, as the Russian hemp is cured by heat. An article was read, approving some parts of Sanderson's invention for cleaning and breaking hemp. The chairman stated that the Naval Bureau had formed a contract for supplying the service with sail cloth, manufactured from flax, to which a condition was attached, that the contractor was bound to import it from Flanders. This produced a discusion upon the comparative merits of flax and hemp, the adoption of the former being considered generally as opposed to the prevailing opinion of the durability of the latter, and its habitual employment in nautical requisites. Dr. Field exhibited some specimens of the brown corn, the perfection of which consisted in the size and quantity of the produce, the small stature of the stalk, and of its facility of being grown in orchards. This corn was the produce of New Hampshire, and had two large ears on a stalk. The greatest yield of this specimen, on Mr. Brown's farm was measured at 130 shelled bushels. Dr. Field considers, after reasonable deduction, that his would produce 91 bushels to the early Canada, from which Dr. Field differed. The regular question of the occasion, "Is it the natural tendency of manure to ascend or descend," was adjourned until the meeting of the national convention, and after a few other matters of little moment of record the Club adjourned.

The First Arra—Mr. J. Lewis, the author of

meeting of the national convention, and after a few other matters of little moment of record the Club adjourned.

The Fire Ares.—Mr. J. Lewis, the author of the Aboriginal Portfolio, is making arrangements to exhibit to our citizens a gallery of Indian Paintings, representing the tribes and chiefs of various nations, taken from nature, in their original costumes. The sketches from which these paintings (the size of life) were taken, were executed by Mr. L. while in the employ of the general government, in attending various Indian treaties, for that purpose. Mr. L. is, we understand, the pioneer who first traversed the far west for that special object.

The Chinkse June.—There is certainly something that the public do not understand respecting the stay of this curious vessel in our harbor. A fortught since or more, she was advertised to leave; but we see her still at the old place at Castle Garden, and now we hear the captain has announced his intention of keeping her here a few days longer. We suppose he finds it a profitable speculation; and wants every one visiting the city, as well as all of our own citizens, to see her before he takes her away; or, in other words, to catch a half dollar from every one.

Arrival of Emigrant Passengers.—The number of emigrant passengers arrived at this port during Tuesday last, amounted to 214.

FIRE AT BLOOMINGDALE.—A fire occurred on Tuesday afternoon last, about 2 o'clock, in the dwelling house owned and occupied by Mr. Richardson, situated near the Bloomingdale road, between 9th and 100th streets. The building was consumed, but a large proportion of the furniture was saved by the exertions of the 12th ward police. The family had been absent from the city, we understand, some days previous, and were at the time of the conflagration.

Accident.—Mrs. Cole, the popular equestrian performer, owing to the sudden stopping of the hores which she was ridding in the ring at the Bowery and medical aid procured.

INDICTED.—The grand jury, yesterday, found a true bill of indictment fo

Board of Education.

Board of Education.

Special Merrino, Sept. 23.—The minutes of the preceding meeting were read and approved.

Reports.—Of Finance Committee, in relation to an application of the trustees of the 13th ward, for an appropriation asked of \$3,797, to meet the expenses of one of the ward schools, and recommending that same be granted, and that an application be made to the Common Council to appropriate the same. Accepted.

The Report of the Executive Committee, in relation to the purchase of a site for a free academy, was next taken up.

Mr. Boswort, Commissioner of the 16th ward, offered a resolution for adoption, authorising the Committee to cause a building to be crected on the site purchased for the erection of a free academy, according to the plans and specifications furnished to the Board, and to advertise for contracts for the erection of asme.

The resolutions, after a short debate, were put, and 23 having voted in the affirmative, and 4 in the negative, it was adopted.

Mr. Carrigan offered a resolution requesting the Board of Supervisors, to raise by taxation—pursuant to the act authorizing such Board to erect an academy—a sum of \$50,000 for the srection and fitting up of said academy. Adopted.

After some other business, the board adjourned.

COURT OF OVER AND TERMINER, Sept. 22—Before
Judge Edwards, Aldermen Kelly and DeForrest.—The
court opened this morning, and immediately after adjourned, there being no business ready.

THE CIRCUIT COURT remained in session, and disposed of four inquests, and one small case.

Cosmon Fleas—Before Judge Uishoeffer.—There were three small cases of no interest tried in this court

Common Pleas—Before Judge Ulshoeffer.—There were three small cases of no interest tried in this court.

Court of General Sessions, Sept. 22.—Before Recorder Scott, and Aldermen Spofford and Dod.—John McKeon, Esq., District Attorney—Trial for Grand Larceny.—At the opening of the Court, this morning, David Bartlett, alias Kelso, was placed at the par for trial, on an indictment for grand larceny, in having on the 23d day of July, with George Howard and John Allen, stolen from John Brock, 100 bank bills of the value of \$100; 50 benes from John Brock, 100 bank bills of the value of \$500; 50 benes of gold coin of the value of \$100; 100 bank bills of the value of \$500; 50 benes of gold coin of the value of \$400; one watch worth \$60; 2 chains worth \$47; 148 rings worth \$51; 89 sencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$7; 12 pair spectacles worth \$15; 9 pencil cases worth \$15;

Conviction and Sentence of Kelly.—Catskill, September 19th, 1847.—The Circuit Court, Judge Willard, presiding, has just closed its September term, for this county. John Kelly was indicted for the murder of Mrs. Lewis in Frattsville, on the 23d of August last, and put upon his trial yesterday morning. It terminated to-day about half-past twelve. The jury, after a deliberation of about an hour, returned into court with a verdict of guilty. During the trial, and even aiter the vesdict was rendered Kelly seemed totally indifferent as to his fate, and reckiess of all consequences. The District Attorney, assisted by M. Sanford Esq., conducted the suit for the people, and W. A. Steenburgh of Frattsville, for the prisoner. The evidence was purely drecumatantial, but very strong, and Steenburgh managed the case for the prisoner as well perhaps as any other could have done it. Mr. Sanford summed up the cause for the people, and I think I never heard him do better. It was a rare piece of forensic eloquence. Judge Willard's obarge was as impartial as it well could be; he was about fifty minutes in its delivery. Kelly was sentenced to be hung on Thursday, the 28th o October next,—Columbia Republican.
